Career Objective

To contribute to higher education through quality teaching, research, student mentorship and academic leadership, while building an industry-ready, AI-first learning environment that fosters innovation, critical thinking and hands-on skills.

Professional Summary

Assistant Professor with an MCA from NIT Jamshedpur (AIR 536 in NIMCET) and hands-on experience teaching Python, Data Structures & Algorithms, DBMS, Machine Learning, Operating Systems, Computer Networks and Mathematics. Experienced in outcome-based education (OBE), NBA/NAAC documentation, project supervision and student mentoring. Builds and teaches practical, modern AI skills: AI agents and Agentic AI, Retrieval-Augmented Generation (RAG), prompt engineering, AI-assisted filmmaking, AI in Excel, and AI-assisted website development with deployment. Experienced in guiding students through Git and GitHub workflows, and in explaining complex technology in a simple, engaging way to learners from school to university level.

Educational Qualifications

Degree	Institution	Year	Specialization
MCA	NIT Jamshedpur	2024	Computer Applications
BCA	J.S. University	2021	Computer Applications

Teaching Experience

Assistant Professor / Technical Instructor, CGC University (Apex), Mohali | *Jul 2025 – Present*

- Teach undergraduate engineering and computer application courses: Python, Machine Learning, DSA, DBMS and allied subjects.
- Prepare course files, lesson plans, assessments and laboratory manuals aligned with Outcome Based Education (OBE).
- Mentor students for projects, internships and placements.
- Contribute to accreditation work and NBA/NAAC-related academic activities.
- Bring current AI tools and practices (AI agents, RAG, AI-assisted coding) into classroom and lab teaching.

Assistant Professor, Smt. S. R. Patel Institute, Gujarat | *Jun 2024 – Jun 2025*

- Handled theory and laboratory courses in Computer Science.
- Guided student mini-projects and major projects.
- Managed ERP operations, attendance and academic records.
- Contributed to departmental academic planning and administration.

FLT Mathematics Tutor, Focus Edumatics | *Feb 2023 – Jan 2025*

- Taught K–12 mathematics to international students in virtual classrooms.
- Delivered engaging online sessions to over 4,000 students.
- Maintained a performance rating of 4.8/5.

Industry Experience

Prompt Engineer, Outlier

- Evaluated AI responses, designed prompts and assessed LLM output quality.

AI & Emerging Technology Expertise

- **AI Agents & Agentic AI:** Designing and building AI agents and multi-step agentic workflows: planning, tool use / function calling, memory, multi-agent coordination, and human-in-the-loop control.
- **RAG (Retrieval-Augmented Generation):** Document chunking, embeddings, vector databases, retrieval pipelines and building question-answering systems over private data.
- **LLMs & Prompt Engineering:** Prompt design, system prompts, structured outputs, response evaluation and LLM quality assessment.
- **AI Filmmaking:** Creating AI-generated films end to end: story and script, image and video generation, voice-over, editing and final production.
- **AI in Excel:** Using AI for formula generation, data cleaning, analysis, automation and dashboards.
- **AI-Assisted Web Development & Deployment:** Building responsive websites with AI tools and deploying them live (GitHub Pages and cloud hosting), including domain and hosting basics.
- **Git & GitHub:** Version control, branching and merging, pull requests, collaboration workflows, GitHub Pages and project documentation.

Workshops & Training Expertise

Available to design, organize and deliver hands-on workshops, FDPs and student training programs on:

- How to build AI Agents and Agentic AI systems
- RAG: building chatbots and knowledge assistants over your own documents
- Prompt engineering and effective use of LLMs
- How to create AI films, from idea to final video
- How to use AI in Excel for analysis and automation
- How to build websites using AI and deploy them online
- Git and GitHub: from basics to team collaboration and portfolio hosting

Projects

Portfolio Website (AI × Data × Education) | View Live

- Designed and deployed a personal 3D portfolio website, hosted on GitHub Pages.

Amazon Sales Analysis Dashboard

- Data cleaning and transformation using Power Query; dashboard built in Power BI.
- Sales trend analysis and business intelligence reporting.

Simple-Chat | HTML, CSS, JavaScript, Node.js, Socket.io

- Real-time web chat application with a Node.js backend and Socket.io for live client–server communication.

Online Voting System | C++

- Mini voting system where administrators manage voters, set up the voting process and view results, using file-based data storage.

SDE Sheet – DSA | C++

- Self-paced DSA repository with 225+ problems and solutions in C++.

DSA Top 50 Questions

- Top 50 beginner-level DSA questions with solutions, used as a learning resource.

Codeforces Contest Solutions | C++

- Competitive programming solutions from Codeforces contests.

Additional private projects (AI agents, Agentic AI and others) are available for demonstration on request.

Courses / Subjects Taught

Programming in Python • Data Structures and Algorithms • Database Management Systems • Object-Oriented Programming • Machine Learning • Operating Systems • Computer Networks • Software Engineering • Mathematics

Research Interests

Artificial Intelligence, Agentic AI, Machine Learning, RAG and LLM Applications, Data Analytics, Educational Technology, Cyber Security, Database Systems and Software Engineering.

Research Publications

- *AI-Powered Fraud Detection: Leveraging Machine Learning to Combat Financial Crimes* (2025)
- *Towards a More Secure Two-Tier ATM System: Proposed Enhancements* (2025)

Technical Skills

Area	Skills
Programming Languages	Python, C, C++, SQL, JavaScript, HTML, CSS
AI & Agentic AI	AI Agents, Agentic Workflows, Tool / Function Calling, Multi-Agent Systems, RAG, Embeddings, Vector Databases, Prompt Engineering, LLM Evaluation
Machine Learning	Pandas, NumPy, Model Building and Evaluation
Web Development & Deployment	HTML, CSS, JavaScript, React, Node.js, AI-assisted web development, GitHub Pages and cloud deployment
Version Control	Git, GitHub (branching, pull requests, collaboration, GitHub Pages)
Databases	MySQL, SQLite
Analytics & Productivity	Power BI, Tableau, MS Excel (including AI in Excel), Power Query, MS Office, Google Workspace, ERP Systems
Creative AI	AI Film Making, AI Image and Video Generation, AI Voice-over

Academic Responsibilities

Time Table Coordinator • Laboratory Coordinator • Project Guide • Student Mentor • Academic Administration • Examination Duties • ERP Management • Departmental Documentation

Achievements & Certifications

- AIR 536 in NIMCET Examination
- HackerRank SQL Certification
- HackerRank Problem Solving Certification
- Full Stack Development Virtual Internship, Teachnook
- Taught and mentored thousands of students, rated 4.8/5

Faculty Development Programs / Workshops

Participated in Faculty Development Programs (FDPs), seminars, workshops and research discussions on emerging technologies and pedagogy.

Professional Strengths

Communication • Classroom Management • Leadership • Teamwork • Research Orientation • Curriculum Design • Student Engagement • Problem Solving • Critical Thinking • Adaptability • Time Management
